This is the last exchange of letters regarding the hearing which is now definitely set for April 12th.

You will note that the I.R.B. refuses to give any charges or specifications so that Philips is in a position to prove itself innocent on a world negative basis instead of having the opportunity of defending itself against specific charges and specifications.

If Hiss, Coplon, et al, had to have charges and specifications, it would certainly seem to me that Philips, with a record of what they did, should certainly be given the same privilege.
